Project Architect & Project Manager

FedEx Express Hub Main Screening Facility **Memphis, TN**

Project Description: Two new buildings at FedEx's Airport Hub connected by a 225-foot single span pedestrian bridge over five lanes of traffic. Total size is 40,000 SF at an estimated cost of \$14M. The facility will perform FAA screening of approximately 7,000 FedEx employees daily, and the office portion will house Hub Security headquarters. Construction scheduled for 2011-2012.

- Led project from the earliest conceptual design efforts, through design development, and the production of construction documents
- Supervised extensive consulting engineer coordination including civil, structural, mechanical, and electrical engineers
- LEED Project Administrator (ongoing supervision of the project's green building certification efforts)

Project Manager

Big River Engineering and Manufacturing **Memphis, TN**

Project Description: Remodel of an existing abandoned downtown warehouse (8,000 SF) to house a light industrial manufacturing facility and offices. Project completed 2009.

- Assisted with conceptual design, construction documents, and on site construction administration
- LEED Project Administrator - successfully achieved LEED Silver green building certification

Project Manager

MATA Operations and Maintenance Facility Feasibility Study **Memphis, TN**

Project Description: A 5-phase strategic planning study including assessment of the Memphis Area Transit Authority's existing facility, a search for and screening of potential new sites, and conceptual design of a new facility. Study completion expected in 2011.

- Extensive collaboration and coordination with a diverse study team including consulting engineers, real estate consulting firms, and transit design firm specialists
- Presentation of study findings in a public setting including to MATA's Board of Directors

Supporting Staff Architect

FedEx Express Hub 180K Package Sort Building **Memphis, TN**

Project Description: A new 130,000 SF building at FedEx's Airport Hub housing sort conveyors, loading stations, and offices. The design includes sustainable features like daylighting, high recycled content, and passive ventilation.

- Assisted with design and detailing of building's exterior envelope enclosure, including collaboration with engineers, wall and roof system vendors, and FM Global insurers
- LEED Project Administrator (ongoing supervision of the project's green building certification efforts)
